Grand Coulee Dam, is one of the largest in the world. It creates an artificial lake 354 feet deep and 2 to 10 miles wide and extends up the Columbia River 150 miles, to the Canadian border. Across the top there is a 24 foot roadway and enough room left to operate the massive gates of the spillway. The power stations, one on each side of the dam, are 1000 feet long and 78 feet wide. Dam 4100 feet long, 450 feet wide at bottom and 36 feet at top.
